

ICCP2014

6th International Conference on Complementarity Problems

August 4 - 8, 2014
Berlin, Germany

<http://www.math.hu-berlin.de/~iccp-2014>

Monday, August 4, 2014

Humboldt-Universität zu Berlin
Campus Mitte
Dorotheenstraße 24
Raum 1.101

Short Courses for Students and Young Researchers

8:30 am - 10:30 am

Michael Ferris (University of Wisconsin-Madison)
Theory and Computations for Multiple Optimization Problems with Equilibrium Constraints (MOPEC)

10:45 am - 12:45 am

Todd Munson (Argonne National Laboratory)
Model-Method Iteration: Solving Good Problems and Detecting Bad Ones

1:45 pm - 3:45 pm

Daniel Ralph (University of Cambridge)
Uncertainty in Electricity Markets

4:00 pm - 6:00 pm

Stefan Ulbrich (Technische-Universität Darmstadt)
Multilevel Methods for PDE-Constrained Optimization and Variational Inequalities

Register by July 28 at
